

Task 1

DDR3 vs DDR4 vs DDR5

Feature	DDR3	DDR4	DDR5
Speed (Typical)	800–2133 MT/s	1600–3200 MT/s	4800–6400+ MT/s
Voltage	~1.5V	~1.2V	~1.1V
Generation	Older	Previous/current mainstream	Newer
Typical Use	Old PCs/Laptops	Many PCs/Laptops	Modern PCs/Laptops
Performance	Low	Better	Highest
Power Efficiency	Low	Better	Best

Task 2

RAM Module Installed

RAM Slot – Module Removed

RAM Module Reinstalled

Successful System Boot After RAM Reinstallation

Task 3

Storage	Key Difference	Speed	Daily-use App / Use Case
HDD	Mechanical moving parts	Slow	Movies/videos/files store karna
SSD	Flash memory, no moving parts	Fast	Chrome / Windows
NVMe SSD	PCIe interface, higher bandwidth	Very Fast	VS Code + large projects

Task 4

Laptop Internal Storage – M.2 NVMe SSD

M.2 SSD Connector

Storage Drive Recognized in Windows
